The amount charged to the applicant for professional review fees shall be equivalent to the total charge to the Township from the respective consultant.
- (2) Any unused portions of the deposit for consultant fees shall be returned to the applicant following signature or disapproval of the plan. If the consultant fee escrowed with the Township shall fall below \$500.00, the Applicant shall be required to refurbish it to an amount determined by the Township Engineer, which amount shall be reasonable given the status of the plan review and anticipated future fees. In the event that the actual amount for consultant fees exceeds the amount of the deposit, the applicant shall reimburse the Township an amount equal to the additional fee.
- (3) For Sketch Plans, if an Applicant chooses to consult with the Township Engineer and/or Township Solicitor, the cost for such consultation shall be paid by the Applicant in accordance with the normal consultant hourly rate charged to the Township.
- (4) Non-refundable.
- (5) For purposes of this fee schedule land development plans for mobile home parks or manufactured home communities shall be included within "subdivision" plans and not "land development" plans. The fees shall be based on the number of manufactured homes proposed with each proposed home being treated as a "lot" for the sole purpose of determining the fee.
- (6) For Final Plans preceded by an approved Preliminary Plan, the Consultant Fees shall be fifty percent (50%) of the indicated fee.

1. The developer or subdivider shall pay the reasonable and necessary charges of the municipality's professional consultants for review and report on any Plan submitted by the developer or subdivider to the Township. These review fees are based upon a schedule established by Resolution and are reasonable and in accordance with the reasonable customary charges for similar service in the community. The rate charged shall not exceed the rate charged by the consultant to the Township for other work performed at the Township's request for which there is no outside reimbursement. Such costs shall include, but not be limited to:

- a. Reviewing the plan for conformance to the provisions of the codes and ordinances of the Township.
- b. Site inspection for conformance to topographic survey.
- c. Reviewing cost estimates of required improvements.
- d. Review/preparation of legal agreements, review of deeds and other legal instruments.

3. The owner/applicant shall be obligated to pay any engineering fees incurred for inspecting and approving final construction pursuant to the Franklin Township Subdivision and Land Development, or any duly adopted Standards, Rules, Regulations, or Specifications of Franklin Township. Prior to recording of the Plan, an escrow/deposit in the amount estimated by the Township Engineer shall be submitted to the Township to be applied to the cost of inspection fees. The escrow/deposit shall be submitted at such time that the Plan is approved, or the Development Agreement is executed. Any remaining deposit monies for Consultant fees may be used towards the inspection fee deposit. Any unused portion of the deposit for inspection fees shall be returned to the applicant at such time that construction of improvements is completed and/or accepted for dedication by the Township. In the event that the actual amount of inspection fees exceeds the amount of the deposit, the applicant shall reimburse the Township an amount equal to the increased fee or shall be required to submit additional deposit monies in advance of inspection.
